

Le Belle Marche

Driving Instructions

Comunanza to Frasassi Caves

From Comunanza follow the main road through Amandola and Sarnano in direction Macerata.

The turn off for Caldarola (Tolentino) is between 5 and 6 km. north of Sarnano. It is a road leading off on your left at right angles to the ss78 in open countryside.

Keep on the main road through Caldarola and join the SS77 (Civitanova Marche – Foligno). Turn towards Foligno (not Civitanova or A14 Autostrada).

The turn off for Camerino is a bit complicated. It is more or less where the superstrada finishes and continues as an ordinary road. (The superstrada is a dual carriageway. If you pass onto a normal road you have missed the turn off.) Drive slowly at this point – two pairs of eyes are better than one.

Pass through Castelraimondo and Matélico.

Follow signs for Fabriano but you do not enter the town. Keep straight on the main road until you reach the ss 76 and turn towards Ancona.

After 5.6 km and immediately after passing through a short tunnel you will leave the main road. Take the GENGA SASSOFERRATO exit.

You should see signs for ‘Grotte’ or ‘Grotte di Frasassi’ or Genga.

THE TOTAL TRIP REQUIRES ABOUT TWO HOURS.

To Return : From Genga Stazione take the direction ROMA. This will get you onto the SS76 in the right direction. You will later see the direction for Matélico, Camerino etc.

Total Distance: 101 km.

Driving time: 02h15
